Echelon condos at Centennial Hills in [North Las Vegas](#) has construction progressing. The concrete and steel structure, for one of the six luxury mid rise condominium buildings, by **Steve Aizenberg**, [real estate](#) developer, is complete.

The real estate developer has combined the urban high rise living from San Francisco, CA. Convenience is at the forefront of Echelon's amenities.

The \$200 million mid rise project at **Echelon at Centennial Hills**, Nevada has stucco being applied to the exterior and sheetrock being hung. Within the next three months the 62 units could be ready for occupancy.

Included amenities are a computer alcove, gourmet kitchen, a two way holographic fireplace, extended terraces and walk in closets. Residents can enjoy a two story clubhouse with exercise room, private garden areas, spas, swimming pools, basketball and tennis courts.

The luxury [Las Vegas condos](#) upon completion will have subterranean parking within six buildings among 15 acres of land. The prices range from \$400,000 to \$1.5 million. They offer penthouses in addition to 1,000 to 4,000 square feet floor plans in 372 units.

Studio 111, a division of Perkowitz & Ruth [Architects](#), is the architect for Echelon and Royal Construction is the general contractor.

Aizenberg is not new to the Las Vegas Valley. He is the president of Royal Construction and founder of **Spinnaker Homes** in 1993. He's has weathered the storm of double digit interest rates and economic periods of recession.
